Take control of your home  
energy bills and save money.

The Home Energy Audit Toolkit provides you with the tools and user friendly information that can help you to save money on your power bills by reducing your home's energy use.

The tools in this kit can be used to help you to understand how your household uses energy. It also includes practical suggestions that you can do to make your home more comfortable to live in and identify opportunities to save you money. So find the time, pick up the tools and find out just where your money is being spent.
