

Tasmanian Landfill Levy

In 2022, the Tasmanian Government introduced a levy on waste to landfill. The rate of this levy increased in 2024, and is set to increase again in 2026.

This is an extra cost on landfill disposal statewide, with the money raised reinvested by the Tasmanian Government in waste reduction and resource recovery.

This levy is designed to **discourage landfilling and its negative effects on the environment** and our economy while supporting reuse, repair, and recycling.

TASMAN COUNCIL

Scan to find details of the Nubeena Waste Transfer Station, or search for Nubeena Waste Transfer Station.

Recycle Rewards allows anyone to earn 10c refunds for certain beverage containers.

This statewide scheme is separate from your usual comingled recycling.

Guide to Waste and Recycling in Southern Tasmania.

be a good sort

All the resources you need to **be a good sort and look after Tassie.**

Supported by your local council:

rethinkwaste.com.au

General Waste

General Waste goes to Landfill.

THIS INCLUDES:

Long life cartons

Foil-lined paperboard cartons

Soft plastic

Plastic bags & packaging

Take-away coffee cups

Consider using a reusable cup

Clothing and textiles

Please donate re-usable clothing

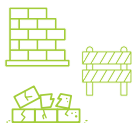

Nappies

These can only be put in landfill

Keep these out of general waste:

Batteries

Building waste

Hazardous waste

Batteries in general waste starts fires!

Scan to find a battery drop off point or visit bcycle.com.au

Recycling

Keep it loose - don't bag recycling!

RECYCLE THESE 5 MATERIALS:

1. Paper

Clean and dry, no paper towels

2. Cardboard

Clean and dry

3. Hard Plastic

Empty and rinsed with lids off

4. Glass

Jars and bottles only, no crockery

5. Steel & Aluminium

Cans and clean foil

Keep everything else out of recycling:

Plastic bags

Clothing

Long life cartons

Recycling tip: If in doubt, leave it out!

Scan to learn more about recyclables or visit rethinkwaste.com.au

Organics

Organics in landfill release methane.

COMPOSTING BENEFITS:

Save money

Turns waste into healthy plants

Reduce your impact

Reduces landfill methane

Generate healthy soils

Builds up good soil

Learn to compost or set up a worm farm at home with this **free booklet!**
